

# Midvalley Express (MVX)

## Murray, Taylorsville, and West Valley

In March 2024, UTA began construction of the Midvalley Express (MVX). The MVX is the third BRT route in the system, which will offer fast and efficient service between the Murray Central Station and West Valley Central Station. The 7-mile route will connect local destinations and planned developments across Murray, Taylorsville, and West Valley City. The route will feature a designated bus lane on 4500/4700 South from Atherton Drive to Redwood Road. The MVX will improve transit accessibility, frequency and connect riders to local destinations.

### ELEMENTS

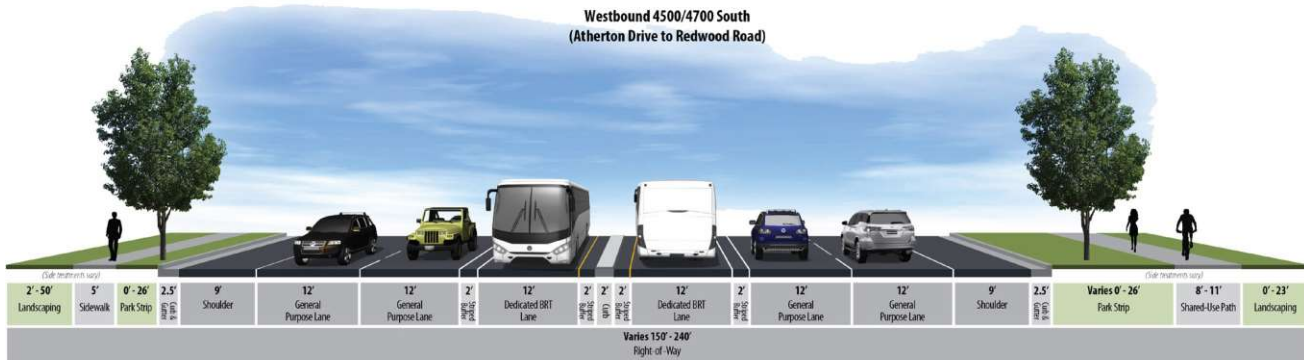

- 10 new electric buses
- 15-minute service
- Transit signal priority
- Comfortable, sheltered station

### SCHEDULE

- Construction Starts Spring 2024
- Construction Ends Fall 2026

### DESIGNATED BUS LANES

Along 4500/4700 South from Atherton Drive to Redwood Road

### Midvalley Express Service
